## OUR APPROCH TO CORPORATE TRAINING

Pcon Energy Services Limited provides all kinds of quality training's to corporate organizations, our training are usually delivered by qualified professionals with many years of field experience using standard and updated facilities, each course is tailored to meet our clients need and it designed to immediately impact positively on the delegates

From experience, we are fully aware that most courses in the oil and gas sector should be thought as hand-on-practice, hence **Pcon Energy** provides most of her course as hand on practice.

Our corporate trainings are well packaged and even tailored in a way to meet international standard. Our client companies will benefit from the following:

- More Elaborate Training
- Preferential Training
- Flexible Timing
- Concurrent Training Packages
- Branded Training
- On Facility Training
- Comprehensive practical

## ON THE JOB TRAINING

In addition to all Technical and Safety Technical Courses provided by Pcon Energy Services Limited, our highly specialized On-the-Job Training programs take trainees at any level(from school drop outs to university degree holders) and create competent, successful, safety-conscious workers in all areas such as operation, Production, Maintenance, Processing, Instrumentation, Drilling, Well Intervention, Mechanical, Electrical, HSE, etc

However, with the latest technology, we have developed an innovative hands-on training programme designed to eliminate the risk to staff and equipment posed by under-training or inexperience employees in the field
